► One Name ► One Company ► One Commitment to Service

OVERVIEW

FORT MCMURRAY IS A UNIQUE MINING ENVIRONMENT WITH unique challenges, and SMS Equipment is all about finding solutions. Our number one commitment is customer service. Whether you need new equipment, parts and service or product support, SMS has the solution.

The oilsands are like no other place on earth. Offering some of the harshest mining conditions in the world, the oilsands present unique challenges for our customers. SMS is committed to providing integrated solutions custom-made for our clients' unique needs.

As one of the largest Komatsu dealers in the world, we provide equipment, parts and service to the construction, forestry, mining and utility industries across Canada. Our highly experienced employees cater to all aspects of mining, from parts and service requirements to custom fabrication and machining. If it drives, digs or drills in the oilsands, SMS has the expertise you need to operate and maintain it.

SMS Equipment provides a broad range of products and services including:

- Sales of new and used Komatsu haul trucks, excavators and hydraulic shovels, dozers and loaders, Driltech Mission rotary blasthole drills
- Undercarriage and ground engaging tools
- Comprehensive service of all the equipment we sell. Specialized factory trained technicians provide on and off site service, from equipment repair and maintenance to welding, sandblasting and machining
- Locally stocked and supplied parts with a large inventory of aftermarket parts and
- Working for you 24/7
- Custom manufacturing of a variety of equipment from light towers to haul truck dump bodies
